

## Process for the Review of Academic Assessment Plans (PRAAP) & Program Review Process

The goals of PRAAP and program review are to support academic programs in enhancing program quality and guide academic decision making. [University Assessment Services](#) leads the PRAAP process. The Assessment Advisory Council ([AAC](#)) supports UAS in the review of assessment plans. Assessment plans and annual assessment updates are included in the [program review](#) self-study. The Academic Planning Committee ([APC](#)) is responsible for the review of the self-study and feedback to academic programs. [PRPA](#) has created [Academic Program Profiles](#) with data you can use for your self study.

Annual update, assessment plan, and program review history are on the **Updates** tab.

## Process and Dates

Dates are approximate. Centers do not require annual updates. Program review documentation for certificate programs should be submitted with the self-study report compiled for the degree program with which the certificate program is associated. Export this table to CSV by clicking on the three dots in the upper right corner.
