ABOUT NSSE

The National Survey of Student Engagement (NSSE) measures the amount of time and effort first-year and senior students put into their studies and other educationally purposeful activities. The NSSE also measures how colleges and universities deploy their resources and organize the curriculum and other learning opportunities to get students to participate in activities that decades of research studies show are linked to student learning.

NSSE was developed by the Center for Postsecondary Research at Indiana University and coordinated locally at ISU by University Assessment Services. It is administered in the spring semester to first-year and senior students.

More information:

ISU NSSE data and other information: <https://assessment.illinoisstate.edu/surveys/student/>
Center for Postsecondary Research, Indiana University: <https://nsse.indiana.edu/nsse/>

DATA NOTES

To protect respondent privacy, groups with small responses may not be displayed. Some questions were not asked in some years. In those situations, results will be blank. Caution should be exercised when generalizing survey results based on low response rates and smaller demographic groups filtered by survey criteria to larger populations. Contact University Assessment Services for more information and research considerations.

COLLEGES AND MAJORS

Students are asked to provide their major on the NSSE instrument. This report organizes majors in colleges. CAS is organized into three colleges. The table below displays the colleges. The last pages of this report display the colleges and majors.

College	Name
CAST	College of Applied Science & Technology
CAS-HUM	College of Arts & Sciences - Humanities
CAS-MNS	College of Arts & Sciences - Math & Natural Sciences
CAS-SS	College of Arts & Sciences - Social Sciences
COB	College of Business
COE	College of Education
MCN	Mennonite College of Nursing
PROVOST	Univ. College & Interdisc.
WKCF	Wonsook Kim College of Fine Arts
